EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or

additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR

1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the

payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with

Kevin M. Drucker on 25 May 2005.

The application has been amended as follows:

a.) In claim 1, delete the phrase "of the second groups" starting in line 19 and continuing into

line 20.

b.) In claim 18, delete the phrase "wherein the signal processing unit calculates the subset by;"

starting in line 1 and continuing into line 2, with the phrase "wherein the sunset is calculated

by:".

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The instant application discloses a wireless radiofrequency data communication system. A search of prior art records has fail to discloses a wireless radiofrequency data communication system comprising: "wherein the signal processing-unit is arranged to calculate, in use, a detection signal \mathbf{x}_{DET} according to $\mathbf{x}_{DET} = \arg_{over\ set} \min\left(\|\mathbf{r} - \mathbf{H}\mathbf{x}^p\mathbf{s}_{SET}\|\right)$ along with the remaining limitations of claim 1. The prior art also fails to teach a method or apparatus for decoding data comprising: "c) calculating, for the first transmitter, a second vector length for each complex vector corresponding to a combination in the subset; if there are one or more other transmitters, then, for each other transmitter, implementing steps (d) and (e), wherein: step (d) comprises reducing the subset based on the second vector lengths calculated in step (c); and step (e) comprises calculating, for a current transmitter, a second vector length for each complex vector corresponding to a combination in the reduced subset; and (f) generating the data based on the combination of possible data values that corresponds to the complex vector having the smallest second vector length in the subset" as disclosed in claims 9 and 22, respectively.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

DRAWINGS

Page 4

2. Applicant has submitted informal corrected drawings, which are acceptable for

examination purposes only. Formal drawings will be required when the application is allowed.

CONCLUSION

3. Any inquiry concerning this communication or earlier communications from the

examiner should be directed to Lawrence B Williams whose telephone number is 571-272-3037.

The examiner can normally be reached on Monday-Friday (8:00-5:00).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's

supervisor, Stephen Chin can be reached on 571-272-3056. The fax phone number for the

organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent

Application Information Retrieval (PAIR) system. Status information for published applications

may be obtained from either Private PAIR or Public PAIR. Status information for unpublished

applications is available through Private PAIR only. For more information about the PAIR

system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR

system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
